

- (ii) traffic restriction information applicable to the vehicle only on roadway which is open to travel by the vehicle;
- (d) a display unit connected to the central processor and displaying the traffic restricted information in numeric or alpha-numeric characters constantly during the period of restriction applicability; and
- (e) a wireless mobile telephone operably connected to the storage element in the navigation system, whereby the information about traffic restrictions is retrievable from a stationary transmission station in a mobile radio network and is upgradeable.

Claim 11 (Cancelled)

Claim 12 (Currently Amended)

The navigation system as ~~claimed in one of the preceding claims~~ defined in claim 10, wherein the information regarding traffic restriction is taken into account when calculating a route.

Claims 13-14 (Cancelled)

Claim 15

The navigation system as ~~claimed in one of the preceding claims~~ defined in claim 10, wherein the navigation system contains an audio output unit (4) and the traffic restrictions are output audibly.
